Office: 210-738-0020 Fax: 210:738-0033

11/15/2008

Dear Parent, Guardian and Interested Community Members,

The federal No Child Left Behind (NCLB) Act requires that all schools in the nation make Adequate Yearly Progress (AYP) toward achieving national and state goals. As you are aware, by previous correspondence San Antonio School for Inquiry and Creativity has been designated as a Stage 4 school due to not making AYP in math for four years. As a result, our Restructuring Team will be working on creating a Reconstruction Plan focusing on the needs of our students. This plan will be a major restructuring of the San Antonio School for Inquiry and Creativity.

We invite everyone to participate as we proceed in the creating a comprehensive plan that will meet the needs of our students and improve their academic achievement. You are welcome to submit suggestions via phone calls, email, in person or written. We will be having several meetings during this process, any of which you are welcome to attend. If you wish to attend a meeting, please call Mr. White at (210) 738-0020 to inquire when the next meeting is scheduled. If you would prefer to email suggestions or comments you may email [debdeleon@sanantionioschool.org](mailto:debdeleon@sanantionioschool.org). Additionally, you can stop by the school and leave a written comment or suggestion or schedule a meeting with an administrator between the hours of 9am-4pm to discuss options at 4616 San Pedro.

We look forward to your suggestions that will contribute to providing a rich and relevant educational environment for our students.

Thank you,

Dr De Leon
